# Iris dentCHECK

This drone is designed for non-destructive testing. Developed in collaboration between Donecle and 8tree, it is a flying dentCHECK for automated detection and measurement of dents and bumps.

- ✓ Reliable measurement
- ✓ Fast detection
- ✓ Automated dent mapping
- ✓ Safe inspection

<b>2m<sup>2</sup>/min</b> SCANNING TIME	<b>END-TO-END</b> DIGITALIZED
<b>0.1 mm</b> ACCURACY	<b>100%</b> AUTOMATED

**Scan**  
Perform  
the flight

**Report**  
Detect &  
measure

**Track**  
Digital dent  
mapping

## ► Dent detection

### STEP 1

Send the drone to scan a desired location.

## ► Dent measurement

### STEP 2

Get an automated and precise measure of each dent.
