Working Student (m/f/d): Cloud integration using Angular

We are seeking a motivated and skilled student to join our team in the field of web development. The successful candidate will work together with us on moving from a PHP built system to a new and modern architecture using Angular with TypeScript.

RESPONSIBILITIES

- ✓ Being involved in both frontend-based web development using TypeScript, HTML and CSS
- ✓ Utilizing an application-design framework called Angular
- ✓ Finding and implementing software solutions for a seamless conversion of PHP and JavaScript code into TypeScript

RELEVANT SKILLS

- ✓ Enrolled in a degree in Computer Science, or a related field.
- ✓ Working knowledge in the area of web development.
- ✓ Knowledge in JavaScript, TypeScript, HTML and PHP
- ✓ Strong analytical and problem-solving skills.
- ✓ Interest in the field of cloud and web development.

BENEFITS

- ✓ Competitive salary from 15 to 20 Euros per hour depending on experience.
- ✓ Work flexible hours in our Konstanz office or from home.
- ✓ Opportunities for professional development through workshops and code reviews.
- ✓ A supportive and collaborative work environment that lets you play to your strengths.

This is your chance to gain experience in the ever-growing field of web development, because no matter where you are, the Internet is ubiquitous these days. Any accumulation of data is stored in a cloud nowadays and this will only increase in the coming years.

If this piques your interest, then we would be more than happy to welcome your application.
