

PRESS RELEASE

AMROS Global partners with 8tree to offer dentCHECK-as-a-service™

8tree's dentCHECK-as-a-Service program grows with the addition of AMROS Global as an 8tree Certified Service Partner.

dentCHECK-as-a-Service delivers on-demand airframe spot-checks and nose-to-tail mapping for lease transitions and catastrophic hail damage scenarios.

CONSTANCE, GERMANY & RANCHO CUCAMONGA, CALIFORNIA, JULY 13, 2023

Over the past year, 8tree's dentCHECK-as-a-Service (daaS) business has digitally mapped and reported over 10,000 dents across a dozen commercial aircraft. In response to growing market demand for such services 8tree is building a global network of service partners, while also scaling 8tree's internal staffing. AMROS Global is the latest industry expert to join 8tree's service network.

Starting July 13th, AMROS Global will become an 8tree Certified Service Partner offering on-demand airframe inspection service using dentCHECK, in central Europe.

“Together with 8tree, we will be able to further extend our innovative, integrated solution offering for technical management of aircraft, following. With dentCHECK-as-a-Service, we will provide a never seen before structural inspection service, revolutionizing the way we perceive quality in measurement, analysis and reporting of structural damages on aircraft of all types – be it for scheduled or unscheduled inspections,” said Eros Tavani, CEO AMROS Global.

“We are delighted to welcome AMROS to 8tree's global service network”, said Howard Chung, Applications Engineering Manager at 8tree. “AMROS' proven track-record in managing aviation assets coupled with 8tree's widely adopted 3D dent-mapping tools, is certain to deliver faster aircraft turn-around-times for the industry”

The dentCHECK platform is the world's only handheld-portable, completely wireless 3D scanner tool with integrated AR that is purpose-built for the aviation maintenance industry and recognized by all major aerospace OEMs. It can also be found integrated into drones and robotic automation cells. Leading Airlines & MROs across the Commercial, Military, Cargo and Business aviation sectors use 8tree's dentCHECK tool and 8tree's dentCHECK-as-a-service for mapping aircraft damage and creating detailed SRM-compliant digital damage reports.

With integrated AR, dentCHECK empowers the aircraft technician with instant, actionable measurements for critical airframe damage while boosting consistency (18x), accuracy (20x), efficiency (90% time-savings) and eliminating human-subjectivity, compared to traditional manual inspection methods. dentCHECK delivers precision measurements 'as simple as taking a photo', and enhances safety through an improved understanding of airframe reliability.
